

GIVE THIS DOCUMENT TO PRACTITIONER

Practice-Based Equine Clerkship
Department of Large Animal Clinical Sciences
VEM 5730 and VEM 5830

STUDENT OBJECTIVES FORM

Student Name: _____ **Rotation Dates:** _____

Clerkship (please check one):

VEM5730 (core) **VEM 5830 (elective)**

Name of Practitioner: _____ **Faculty Liaison:** _____

Please give this completed form to your supervising practitioner at the start of you clerkship. Use your objectives and the mid-clerkship review form to discuss your progress with your practitioner during your mid-clerkship discussion. Additionally, review your objectives and how you were able to accomplish your goals with your faculty liaison during your post-clerkship review meeting.

Objective examples:

- Be able to perform physical examinations and utilize safe handling techniques at a level that meets or exceeds the skills of an entry-level veterinarian.
- Be able to formulate an individual and/or a herd-based therapeutic plan for the treatment of commonly encountered diseases and conditions such as colic in horses, retained placenta in any species, etc.
- Be knowledgeable about vaccinations, parasite control programs, etc., and be able to formulate a protocol for an owner based on the species, numbers of animals, management i.e. open versus closed herd, access to pasture or dry lot only.

Use the following space to describe at least four to five specific objectives that you would like to accomplish during your Practice-Based Equine Clerkship (additional paper may be used):
