(6) Florida Residency Declaration section :

Florida Residency Declaration

Florida Residency Declaration

A Florida "resident for tuition purposes" is a person who has, or a dependent person who has, established and maintained legal residence in Florida for at least twelve (12) consecutive months of the term for which Florida residency is sought. Residence in Florida must be a permanent residence incident to enrollment at an institution of higher education for tuition purposes, you must be a U.S. citizen, a foreign national in a nonimmigrant visa status, establish a bona fide domicile in the United States, a permanent resident alien, or have been granted indefinite stay by the U.S. Citizenship and Immigration Services. Other legal residence requirements may be classified as Florida residents for tuition purposes in special categories authorized by the Florida Legislature pursuant to section 1009.21, Florida Statutes, which are ineligible for classification as a Florida "resident for tuition purposes."

Living in or attending school in Florida will not, in itself, establish legal residence. Students for support are presumed to be legal residents of the same state as their parents. Legal residence requires the establishment of legal ties to the state of Florida. A student must verify that states if the student or, in the case of a dependent student, his or her parent has moved from another state to Florida.

Qualification by Exception

If you do not meet the above criteria, you may qualify for an exception.

☐ (A) I am a qualified beneficiary under a Florida Prepaid Recipient card (Copy of Florida Prepaid Recipient card).

☐ (B) I am married to a person who has established legal residence and in other documents required to establish residency.)

☐ (C) I was previously enrolled at a Florida state postsecondary institution and classified as a Florida resident for tuition purposes. I am transferring to another Florida state postsecondary institution within 12 months.

☐ (D) I was previously enrolled at a Florida state postsecondary institution and classified as a Florida resident for tuition purposes. I abandoned my Florida domicile less than 12 months ago and am now re-establishing my Florida domicile.

Please upload a file of any documents providing information about your residency exception.

Do you qualify as a resident for tuition purposes?

Required Information for Florida Residency

I qualify as a resident for tuition purposes, as defined by s. 1009.21, Florida Statutes, for the term for which this application is submitted. I understand that it will be necessary for me to present evidence of residency for tuition purposes, supporting my claim as a Florida resident for tuition purposes.

Qualifying as a Dependent or Independent Student

A *dependent student*, as defined by s. 1009.21(1)(a), Florida Statutes, is someone who can be claimed as a dependent under the federal income tax code by the claimant. The claimant is my "parent" as defined by s. 1009.21(1)(f), Florida Statutes, (i.e., either or both parents of the student, any guardian of a student, or any person in a parental relationship to the student). My parent has maintained legal residence in Florida for at least the past 12 consecutive months. As defined by section 1009.21(1)(d), Florida Statutes, "legal resident" or "resident" means a person who has maintained his or her residence in this state for the preceding year, has purchased a home which is occupied by him or her as his or her residence, or has established a domicile in this state pursuant to s. 222.17." If you are a dependent student then a copy of your parent's tax return may be requested to establish dependence.

An *independent student*, as defined by s. 1009.21(1)(a), Florida Statutes, is someone who has maintained legal residence in Florida for at least the past 12 consecutive months and provides more than 50% of their own support. An independent student generally includes a person who is at least 24 years old, married, a graduate or professional student, a veteran, a member of the armed forces, a ward of the court, or someone with legal dependents other than a spouse, pursuant to the United States Department of Education for the purposes of federal financial aid eligibility. There may be limited cases where a person under the age of 24 years old may qualify as an independent student. Such students will be required to verify independence (including financial independence.) If you are an independent student then a copy your tax return may be requested to establish independence.

As provided in s. 1009.21, Florida Statutes, I meet residency requirements by one of the previous qualifications by exceptions.

I have read the residency information on qualifying as a dependent or independent student as defined by s. 1009.21(1)(a), Florida Statutes, and declare that I am:

To Be Completed by the Claimant/Person Claiming Florida Residency

If you select independent or dependent, you (for independent) or your parents (for dependent) will need to fill out some address and contact information and also fill in documentation for proof of residency (i.e. information from driver's license or voter ID card), or upload this information.

Do you qualify as a resident for tuition purposes?
 No

Non-Florida Resident

I do not qualify as a Florida resident for tuition purposes for the term for which this application is submitted. I understand that should I qualify for a future term, it will be necessary for me to submit an updated Residency Declaration while providing prescribed, supporting documentation to substantiate as "reclassification" of my status. I understand being classified as a non-Florida resident will not exclude me from the possibility of receiving a waiver to cover part or all of the out-of-state fee as defined in s. 1009.26, Florida Statutes. Submission of an updated Residency Declaration must occur prior to the beginning of the term for which residency is sought. I do not have to complete any further portion of this form except for the signing below.

Checking the box below represents my signature authority.

☐ I am not a resident of the state of Florida for tuition purposes.

Next steps in the process

It takes 3-5+ business days for our Registrar's Office to look over an application. If staff of the Registrar's Office have any questions about your application or if they need additional information, this information will be marked in the Registration portal. They may also email you, but things that need to be updated will for sure be marked in the registration portal. So be sure to periodically log into the registration portal using your email and password to check on the status of your application.

If the Registrar folks do not have any questions about your application, they will then approve your application. Once approved, I will send you an email with a few additional instructions so you can be added into the class.

I look forward to having you in the class.

Cheers,
Dr. Patrick Larkin
